**Dated: 15<sup>th</sup> & 16<sup>th</sup> December 2018**

**Venue: College Premises**

It is our great pleasure to invite you all for Participating in this seminar

### About Theme:-

The process of globalization has been increasing interdependence, interconnectedness and integration of economic and social aspects in such a way that change in one part of globe affects the folk in other part of world. The situation of woman has been point of debate throughout the globe particularly how the process of globalization affects the women in empowering them. India is not an exception, however, in terms of every setoff indices of development and socio-economic status, the woman have been found worse than man. In every part and in every stratum of population. In work, employment, earnings, education, health status and decision making process there seem to be distinction between male and female gender. Thus the empowerment of woman needs to be debated in the wake of globalization.

According to the UN report, 1980, the women constitute half of the world population, perform about two third of its work hours, receive one tenth of the world's income and own less than one hundredth of the world's property. The situation of Indian woman is worst, hence, the prevailing situation needs to be understood. The proposed national level seminar is aimed to understand how the process of globalization is accelerating women empowering. In the seminar scholars, researchers, and students of various disciplines will be invited so that a hair split analysis could be done from different perspectives and the processes of empowering of women could be understood. Much attention has been pair on economic empowerment; the proposed seminar will focus to understand how the economic empowerment leads changes in social empowerment among the women in India.
